SECOND SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Dear Sir:

Applicant is aware of the references listed on the attached Form PTO-1449, copies of which are enclosed herewith, and which may be relevant to said application. In submitting such references, the applicant does not admit that they are prior art to the present application.

In the Office Action dated March 10, 2004, the Examiner stated that the Information Disclosure Statement filed on July 23, 2002 fails to comply with 37 CFR 1.98(a)(2) for failing to provide a legible copy of each publication listed in the IDS. The applicant respectfully asserts that legible copies of each publication were submitted with the original Supplemental IDS. Nonetheless, the applicant resubmits copies of these publications herewith.

The Applicant would like to inform the Examiner that page 1 of the reference titled “Good Information Fights Bad Checks”, by Catherine Cooke still cannot be located. The Applicant has diligently, yet unsuccessfully, attempted to obtain a complete copy of the Cooke reference. However, the Applicant respectfully requests the Examiner to consider the Cooke reference as submitted.

The applicant would also like to inform the Examiner that the enclosed reference titled “In Battling Check Fraud, Business Fights Technology with Technology”, by Mark Mehler, was cited in the Supplemental IDS filed July 23, 2002 as being published in American Banker, pp. 6 – 7, June 1995. The applicant believes that the copy of the Mehler reference in Inventor’s Business Daily, January 1994, is more legible than the previously submitted Mehler reference.

Also submitted is a copy of U.S. Patent no. 6,149,056, which was referenced in one of the references cited by the Examiner in the Office Action mailed March 10, 2004.

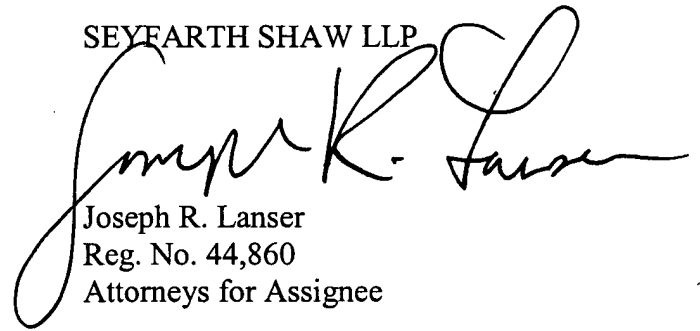

No item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the statement after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in §1.56(c) more than three months prior to the filing of the information disclosure statement.

It is believed no fees are necessary. If a fee is necessary, please charge the same to Deposit Account # 19-1351.

Statement Filed Prior to First Action

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Dear Sir:

On June 18, 2002, Applicant successfully electronically filed an Information Disclosure Statement citing various U.S. Patents. Applicant respectfully submits this Supplemental Information Disclosure Statement citing various non-U.S. Patent documents for entry into the record of the above cited patent application.

Applicant submits this Statement in accordance with the duty of disclosure under 37 C.F.R. §1.56 and §§1.97-1.98. This Statement is filed in accordance with 37 C.F.R. §1.97(b)(3), prior to issuance of a First Office Action on the merits.

As the remaining reference(s) listed on attached Form PTO-1449 is in English, under 37 C.F.R. §1.98(a)(3), no further commentary is necessary.

A copy of each reference, together with a listing on Form PTO-1449, is submitted herewith. Applicants respectfully solicit the Examiner's consideration of the cited references and entry thereof into the record of this application.

The Applicant would like to inform the Examiner that page 1 of Cite No. 2, titled " Good Information Fights Bad Checks ", by Catherine Cooke is missing. The Applicant has unsuccessfully attempted to receive a complete copy of Cite No. 2. However, Applicant respectfully requests the Examiner to consider Cite No. 2 as-is.

This statement shall not be construed as a representation that an extensive search has been made or that no other material as defined in 37 CFR §1.56(a) exists. However, all relevant prior art references known to Applicant have been disclosed.

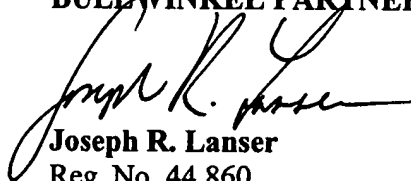

It is respectfully submitted that the present invention as set forth in the claims of the subject application is patentably distinguishable over the patents cited herein, either alone or in combination. It is respectfully requested that all of the patents be considered and made of record in the present application.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application. Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference, any document which is determined to be prima facie prior art reference against the claims of the present application.

A postcard is enclosed evidencing receipt of the above.

Respectfully submitted,
